Word lists remained equal in almost all levels. Lesson 17 of Book 12 has a different history, but the word lists remain the same; and lesson 12 of Book 9 has a different title for history, but history is actually the same as in the third edition and uses the same list of words. Please note that Kindergarten and Book 1 are still 2nd edition. They updated copyright to 2018, but no changes were made to content at these levels. The structure of Books K and 1 is a little different. These vocabulary building activities include the selection of the correct image in the workbook while the parent reads an aloud story from the teacher package. The unique lesson plans and two weeks in these beginning books teach and strengthen words and concepts in 20-25 minutes a day. Teacher packs for K and 1 include broad lesson plans, Concept and Picture Cards, reading and poetry stories, extension and challenge activities, black line master, formal and informal evaluations for each lesson, evaluation checklists and more. There are new activities in Books 3-12, and those have changed from lesson to lesson the response keys of the previous edition and the resources of the teachers will not work with the workbooks of the fourth edition. there are formatting changes in the workbooks, with an updated look. 2 and 3 books still have 15 lessons (10 words per lesson,) and 4-12 books still have 20 lessons each (15 words per lesson.) new activities include "rate your word knowledge," which is a reproducible sheet found in the teacher's resource book to evaluate the knowledge of words before starting a lesson. "Using words in context" is intended to strengthen a student's ability to determine meaning according to context. "To make connections" is to help students make connections between words and understand word relationships. "Determining meanings" helps students understand parts of words (prefixes, roots, suffixes) while strengthening understanding. "Completing Sentences" allows students to demonstrate understanding of words by completing phrases." Voice Extension" is at the end of each lesson, and focuses on one word from that lesson to develop a deeper understanding of vocabulary and application. word wise is now in collaboration with Quizlet.com where students can practice their vocabulary for further reinforcement with online games and exercises. full instructions to access a 12-month subscription are on the inner cover of the student book. Note: the code is not valid 24 months after the date printed on the copyright page. teachers' resource books include teachers' guidesreproducible tests and reviews, vocabulary activities (including web pages and semantic maps,) options for individual or group instructions, pacing options and response keys for tests and workbooks. (Please note that there is a page that recalls the access of teachers to Quizlet, a digital application that includes games that allows teachers to see the progress and activity of students from the past day, week, or year. The access code is not included in the teachers' resource books and are only available to "room set" buyers, who are not currently available to us. However, students will still have access to Quizlet through their student book with instructions included within the front cover). The tests are designed to prepare students for standardized testing; the format is largely multi-choice. There are tests for each lesson, as well as cumulative and final intermediate. If you do not think that intensive and thorough guidance of teachers is required, non-probable trial books (with answers) and response keys (for student workbooks) are available separately. For convenience in order, we also created sets for each degree level which include a student book, a test book and a key. Teacher resource books are included only in sets for grades K and 1; they would be a separate purchase at higher levels. Category Description for Wordly Wise 3000 (All editions:) Wordly The essay works. It is a vocabulary building program that grows with the student, and builds vocabularyand fun. All editions of Wordly Wise share a similar format giving interesting word stories, dealing with usage issues, and exposing common usage pitfalls. There are 20 lessons in each level plus five review lessons. The typical lessons contain a literacy list of fifteen words with a short voice for each part of speech, concise definition, and the correct use of the word in the context of an interesting phrase that provides a mnemonic anchor for the word. Below are sections of activity (which vary slightly with the edition.) The puzzles and puzzles of hidden messages are used for review. The general list of words for the series consists of 3000 words; their frequency-based selection, grade level literature, textbooks and SAT pre-station books. Wordly Wise 3000 3rd Edition (2-12)Book numbers correspond to grade levels. Book 2 includes all lessons in Book A (1st ed.) and 1-7 lessons from book B (1st ed.) It has 15 lessons and 150 vocabulary words. Book 3 includes 8-10 lessons from book B (1st edition) and all lessons from book C (1st ed.) It also has 15 lessons with 150 words and contains some exercises of Greek and Latin root. Students learn 300 new words per year in Books 4-12. The student workbooks contain 20 lessons each with fifteen words. Each lesson includes a Word List with the type of dictionary complete with entry information, an exercise of Search Meanings (choose two sentences to form a phrase that correctly uses a word,) the exercise of Just the Right Worda phrase with a single word,) an exercise of the meanings to apply (using words in context,) an exercise of study of words (cover synonyms, antons, suffixes, prefixes and analogies,) and a passage (classic and contemporary authors) with successive questions. As for reading content, although wordly wise has always been a secular program, many customers have found the increasingly liberal and humanistic content with new editions. if you prefer religious or conservative content, you can opt for a different program. teachers' resources books include teacher guides for lessons, reproducible tests and reviews, vocabulary activities (including word web pages and semantic maps,) group or individual education options, travel options and response keys for tests and workbooks. tests are designed to prepare standardized test students; the format is largely multi-choice. there are tests for each lesson, as well as cumulative and final intermediate. tests have a double column format. at higher levels (grade 9-12), each test also features a "sat sneak preview" section where additional practice is given in preparation for standardized testing. if you do not think that an intensive and in-depth guide of teachers is necessary, non-probable trial books (with answers) and the response keys (for student workbooks) are available separately. the answer keys also have double columns with one column per lesson. Do you have an auditory apprentice? we also offer now set audio cd that refer2-12. These include recordings of each word list to help pronunciation, along with definitions and understanding questions, and all reading steps. There are three CDs each by 2-3 degrees, and 5 CDs for each level by 4-12 degrees. 4-12. wordly wise 3000 book 7 lesson 7 answer key online free
